

Store Website project

# Hong Kong Market

Created by Wen-Hsin Chen

# Apps used

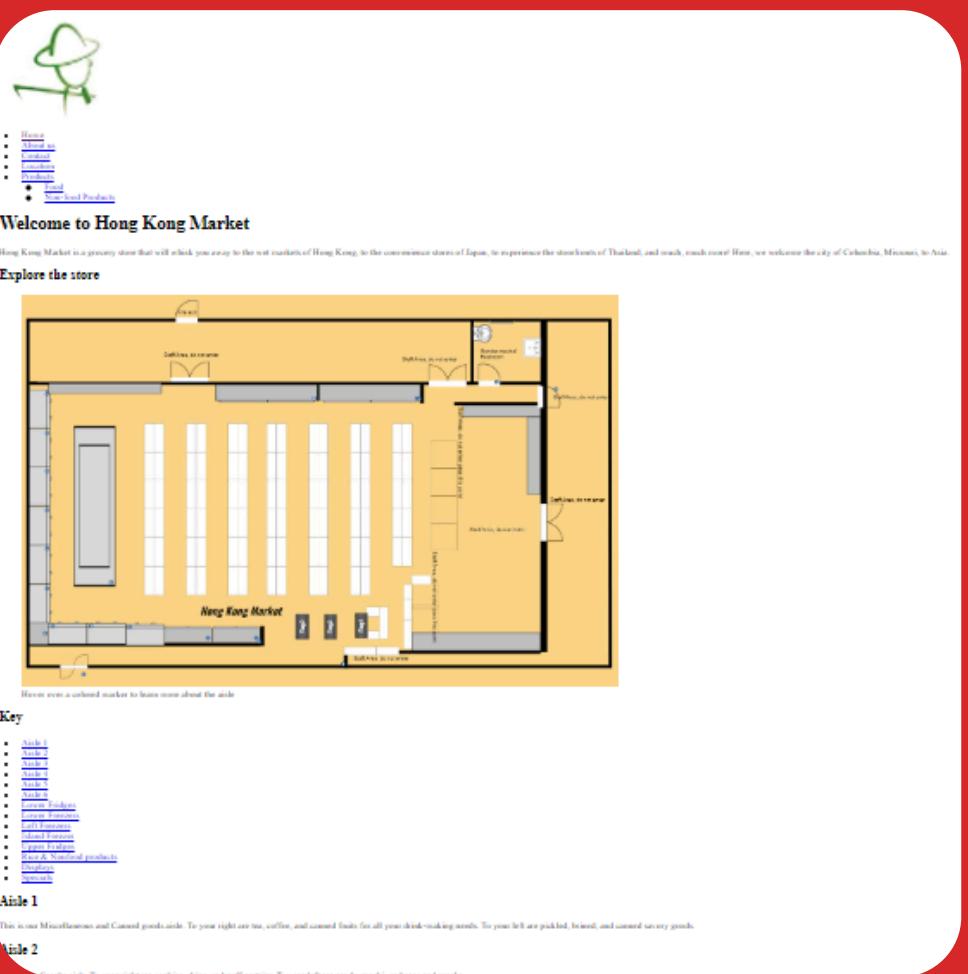

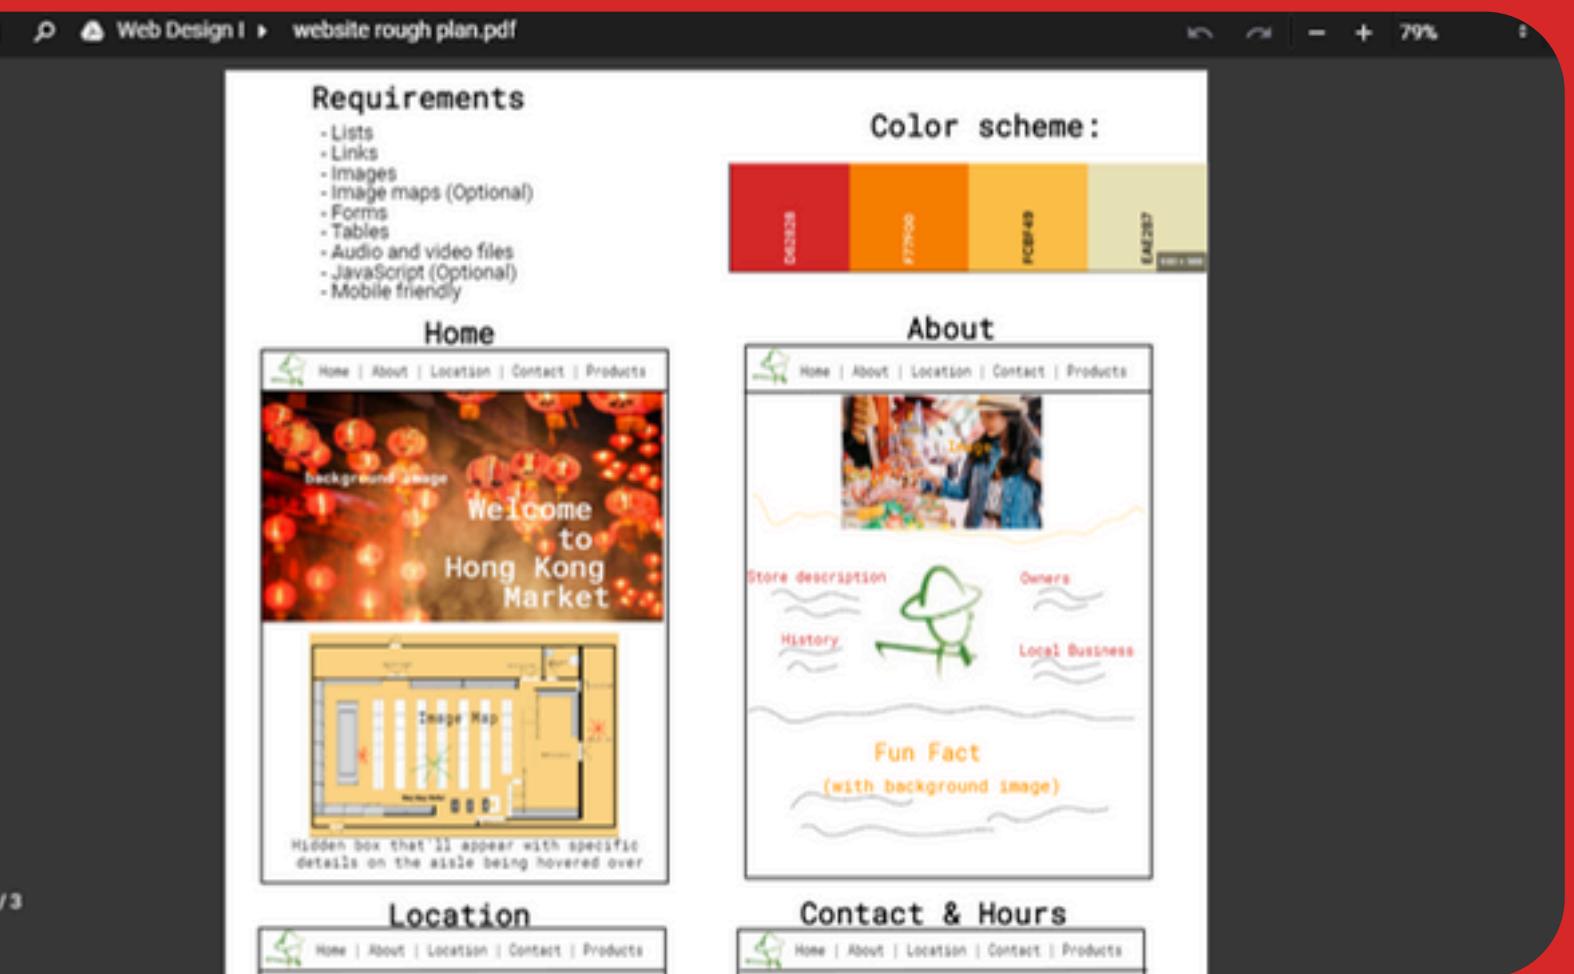

## Communication

- Zoom chat messages during class
- Zoom virtual room
- Discord

## Coding

- Replit (for code)
- Google docs (for outlining/links)
- Kami (for outlining)
- Google drive (for sharing .zips)

# Previous progress...

# Plan Outline

Download needed  
images, outline web  
pages

# HTML basics

Code in pages'  
structure, text,  
images

# CSS basics

Code in pages'  
colors, background  
images, buttons, etc.

# Welcome to

Products Contact Location About Home 

## About Us

Goal  
Even Columbia's major supermarkets only dedicated a measly aisle or two to Asian staples like rice, soy sauce, ramen noodles, etc. Thus, the

**About Page - Did you know?**

# Images

```

70 <article>
71   <h1>Did you Know?</h1>
72   <p>ATO BERT, INC. is affectionately named after a
    player piece in Taiwanese Monopoly. Ato Bert was the farmer
    piece on the Monopoly board who overcame obstacles and
    achieved success through perseverance and hard work, a
    symbol that Hong Kong Market and ATO BERT, INC. seeks to
    embody even today.
73   </p>

# Image map

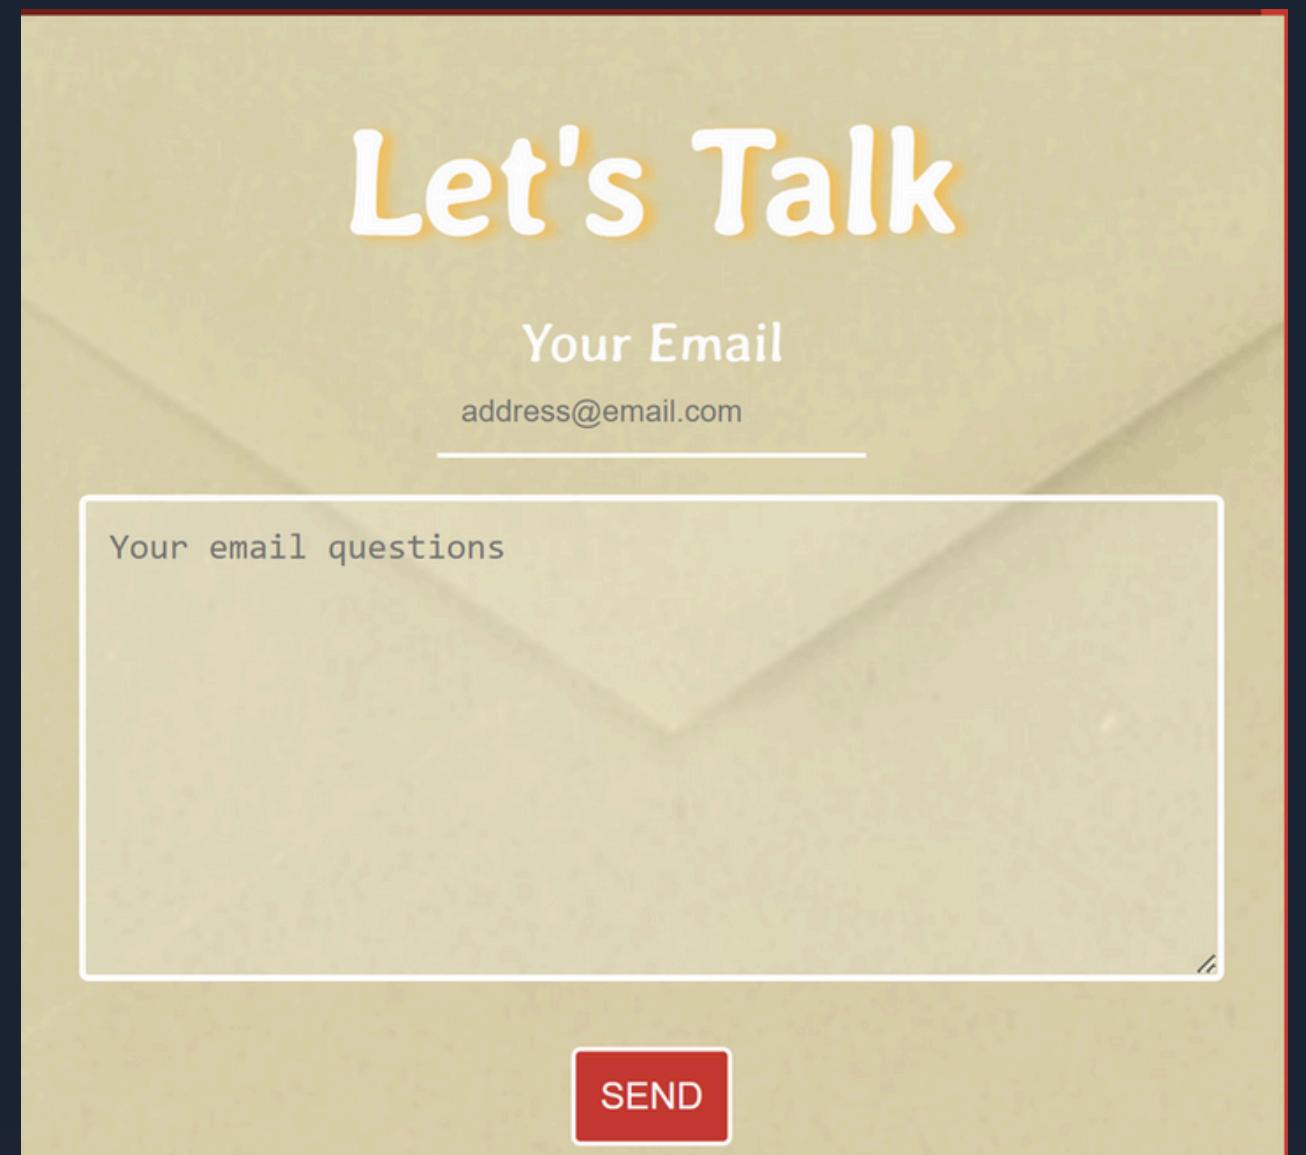

- Home Page - Image map
- Location Page - Image map

The screenshot shows two browser tabs. The left tab is titled 'Hong\_Location.html' and contains the HTML code for an image map. The right tab is titled 'Hong\_Location.css' and contains the CSS styles for the image map. The image map itself is a floor plan of a grocery store with various sections labeled and numbered (Aisle 1-7, Lower Fridge, Upper Fridge, Rice & Cookware, Displays, Specials, etc.). Each section is represented by a rectangular area on the map, which corresponds to a specific coordinate range defined in the HTML code.

```
